Subject: RE: E911 phase 2

Hello Tracy;

Nokia is scheduled to have a product that supports the E-911 phase 2 mandate late 4th quarter of 2002. Our plan will be to introduce products that support the following;

2002 product plan

1. 1XRTT without GPS capability: 1st product within 2nd quarter / 2nd product within 4th quarter
2. 1XRTT with GPS capability: Late 4th quarter of 2002

If you need further details, please let us know.

Best regards,

Albert Seda
Regional Customer Development Manager

Tracy:

Currently on our product roadmap our first GPSone handset is slated to launch mid 2002 with the MSM 5100.

Product launch times are subject to change.

Let me know if you have any questions.

Heidi

Subject: RE: Follow up on our phone conversation

As we discussed earlier, Samsung is currently unable to provide the resources to develop an E911 phase 2 handset to address your company's request. If conditions change in the future, we would certainly re-evaluate the opportunity.

Best wishes to you and Devon Mobile on your planned service launch.
